dealer package

DELIVERED
free

Our Base Dealer Package Receives with **ZERO upfront investment:**

- **0% ethanol, premium 93-octane gasoline in a 275 Gallon approved everywhere portable tote w/pump. Automatic Refill Only pay when used, delivered for FREE!**
- **Street Legal - Be the Leader for your Industry!**
- **Mobile based payment and ordering, we manage payments**
- **Marketing for clientele in your area to increase foot traffic.**
- **Revenue share up to \$1.00 a gallon**
- **Ignite with Slipstream Additive line on consignment**
- **20 Retail Fuel Pods to sell to your customers for repeat fueling.**
- **Fuel 1 Team Swag, Events, Marketing and more!**

Premium Dealer Package with **ZERO** upfront investment:

NO INVESTMENT REQUIRED*

MOBILE STATION AT YOUR LOCATION

PURFUELS

authorized
Distributor

Official Fuel of:

PurFuels E-Free 93 Ignite Series by Fuel 1 delivers pure performance without compromise. With zero ethanol, a premium 93-octane rating, and a clean-burning formulation, it protects engines from moisture, corrosion, and fuel-system damage while delivering stronger throttle response and smoother power. Designed for marine, powersports, classic cars, and high-demand equipment, PurFuels E-Free 93 provides the reliability, stability, and premium performance today's engines deserve—fueling every ride with confidence.

Features:

- 0% ethanol, premium 93-octane gasoline
- Avoids phase separation and moisture issues
- Cleaner-burning with a premium additive package
- Long-term storage stability
- Safe for marine, powersports, classic cars, generators & seasonal equipment

Benefits:

- Protects engines from corrosion, moisture absorption, and ethanol damage
- Improves performance with higher octane, better throttle response, and reduced knock
- Keeps fuel systems clean — injectors, valves, and combustion chambers
- More reliable storage for boats and seasonal equipment
- Versatile use across marine, powersports, performance, and small engine applications

IGNITE

FUEL 1

FUEL INJECTION

CLEANER

Key Benefits of Ignite Injector Cleaner:

- Restores Lost Power & Throttle Response – Removes carbon and varnish buildup from injectors, valves, and combustion chambers to bring back that crisp, new-engine feel.
- Improves Fuel Economy – Cleans and balances injector spray patterns for more efficient combustion and fewer wasted drops of fuel.
- Reduces Emissions – Lowers harmful exhaust deposits and helps vehicles run cleaner for a greener footprint.
- Protects the Entire Fuel System – Adds a corrosion-inhibiting layer that shields metal components, lines, and injectors from ethanol and moisture damage.
- Safe for All Gasoline Engines – Compatible with direct-injection, port-injection, turbocharged, and naturally aspirated systems, including E-Free, E10, and E15 fuels.
- Quick-Action Formula – Starts cleaning on contact; noticeable results within the first full tank.
- Made in the USA – Developed and bottled under a U.S. patent, ensuring unmatched quality, consistency, and regulatory compliance.

GASOLINE

TREATMENT

Key Benefits of Ignite Gasoline Treatment:

- Restores Lost Power & Throttle Response – Removes carbon and varnish buildup from injectors, valves, and combustion chambers to bring back that crisp, new-engine feel.
- Improves Fuel Economy – Cleans and balances injector spray patterns for more efficient combustion and fewer wasted drops of fuel.
- Reduces Emissions – Lowers harmful exhaust deposits and helps vehicles run cleaner for a greener footprint.
- Protects the Entire Fuel System – Adds a corrosion-inhibiting layer that shields metal components, lines, and injectors from ethanol and moisture damage.
- Safe for All Gasoline Engines – Compatible with direct-injection, port-injection, turbocharged, and naturally aspirated systems, including E-Free, E10, and E15 fuels.
- Quick-Action Formula – Starts cleaning on contact; noticeable results within the first full tank.
- Made in the USA – Developed and bottled under a U.S. patent, ensuring unmatched quality, consistency, and regulatory compliance.

MARINE

FUEL TREATMENT WITH SLIPSTREAM

Fuel 1 IGNITE + SlipStream Marine combines our patented injector-cleaning formula with the marine-grade anti-corrosion technology of SlipStream, delivering total protection for boats, PWCs, and all gasoline-powered marine engines.

Key Benefits

- Marine-Grade Carbon Removal – Cleans injectors, valves, and combustion chambers to restore full RPMs and smoother throttle.
- Salt-Air Corrosion Defense – Forms a protective barrier inside the entire fuel system to combat humidity, salt, and ethanol water absorption.
- Stabilizes E-Free & E10 Marine Fuels – Keeps fuel fresh during long storage and reduces phase separation risk.
- Improves Fuel Economy & Reliability – Ensures consistent atomization and cleaner combustion for longer runs and less dock downtime.
- Safe for All Outboard & Inboard Engines – Mercury, Yamaha, Suzuki, Honda, and more.
- Made in the USA – Patented long neck bottle, ensuring consistent purity and marine-grade reliability.

OCTANE +

GASOLINE TREATMENT WITH BOOST

Fuel 1 IGNITE + SlipStream Octane Boost fuses advanced fuel-system cleaning agents with an octane-raising formula that delivers up to +3 points of octane lift, improving throttle response and reducing knock across performance, classic, and high-compression engines.

Key Benefits

- Raises Octane Up to 3 Points – Instantly improves detonation resistance for smoother, stronger acceleration.
- Deep-Clean Fuel System – Patented IGNITE chemistry restores injector precision and combustion balance.
- Max Power & Throttle Response – Ideal for performance cars, motorcycles, ATVs, and small engines demanding crisp response.
- SlipStream Lubricity & Protection – Adds friction modifiers that safeguard valves, pumps, and rings while enhancing efficiency.
- Reduces Engine Knock & Ping – Helps prevent pre-ignition under load or high temperature.
- Made in the USA – American-built, laboratory-proven, and precision-bottled for consistent results.

CETANE+

DIESEL TREATMENT WITH BOOST

Fuel 1 IGNITE + SlipStream Cetane Booster is the next evolution in diesel fuel technology, with SlipStream's advanced Cetane-enhancing chemistry to deliver unmatched combustion efficiency, cleaner burns, and maximum power output.

Key Benefits

- Raises Cetane Up to 5 Points (OPT C5 Formula) – Improves cold starts, reduces ignition delay, and enhances full-load performance in all diesel engines.
- Restores Injector Precision – Removes carbon and varnish deposits for sharper spray patterns and smoother throttle response.
- Boosts Fuel Economy – Optimized combustion means more energy per drop and fewer emissions per mile.
- Lubricates CP4 Pumps with ease, reduces costly repairs.
- Reduces Smoke and Knock – Advanced detergents and cetane modifiers cut soot, vibration, and noise.
- Protects the Entire Fuel System – SlipStream lubricity agents shield pumps, rails, and injectors from wear, corrosion, and ULSD dryness.
- Cold-Weather Confidence – Enhances ignition quality and stability in sub-zero conditions, preventing rough idle and loss of power.
- Fleet & Equipment Safe – Compatible with all diesel engines—on-road, off-road, marine, construction, and agricultural.

PURFUELS

NON-ETHANOL HI-PERFORMANCE

PurFuels E-Free 93 Ignite Series by Fuel 1 delivers pure performance without compromise. With zero ethanol, a premium 93-octane rating, and a clean-burning formulation, it protects engines from moisture, corrosion, and fuel-system damage while delivering stronger throttle response and smoother power. Designed for marine, powersports, classic cars, and high-demand equipment, PurFuels E-Free 93 provides the reliability, stability, and premium performance today's engines deserve—fueling every ride with confidence.
