# Available HomeDirect! PurFuels 93 E-Free

**START YOUR ETHANOL FREE JOURNEY WITH PURFUELS®**  
Discover the Difference with Isobutanol and HydroGuard™

**Our ethanol-free gasoline incorporates Isobutanol, an innovative oxygenate with superior combustion properties, enabling:**

- **More Power:** Retains more energy per gallon compared to ethanol blends.
- **Better Compatibility:** **EPA-approved** for on-road use and UL certified for fuel pumps.
- **Cleaner Energy:** Up to **30% reduction** in CO2 emissions versus traditional fuels.
- **Street Legal** - Be the Leader for your Industry! **STREET LEGAL**
- We supply you with the best of the best Fuel and additives for added reduction in repair costs. **We Care!**

## Reinvent your REC90 with Premium Fuel onsite!

# Smart Fueling

**PurFuels™ 93 Non-Ethanol – Clean Oceans Project Fuel  
Premium Marine Fuel • Engine Protection • Long-Term Stability**

## **THE USER ADVANTAGE**

**PurFuels 93 Non-Ethanol gives marine clients the most stable, highest-performing fuel available for small engines, outboards, inboards, pumps, generators, and seasonal equipment. You benefit from a premium product that reduces downtime, protects engines, and builds customer loyalty—while caring for the finished product.**

## **Why Use PurFuels?**

- **Premium, 93-octane non-ethanol engineered specifically for agriculture, MARINE & small engines**
- **Supports Clean Oceans Project, connecting your business to environmental stewardship, up to 30% Carbon Reduction**
- **Long shelf life—perfect for marine fuel tanks, standby units, and seasonal equipment, up to **3 years** without phase separation**
- **Reduces carburetor repairs, injector failures, and equipment downtime**
- **Helps boaters eliminate the fuel issues caused by ethanol and low-grade pump fuel**
- **Strong branded story that makes YOU the trusted source for better fuel solutions**

**Fuel 1 is the Authorized Distributor of PurFuels Street Legal Gasoline.**

# PURFUELS

# CleanFueling

## WHY MARINE CLIENTS CHOOSE PURFUELS

### 1. Superior Engine Protection

- Zero ethanol means no corrosion, no phase separation, no water attraction, and fewer fuel system failures.
- 93 Octane blends protect high-load engines, keeping them cooler, cleaner, and more reliable.

### 2. Long-Term Storage Stability

- Boaters have on equipment that sits for weeks or months.
- PurFuels resists gumming, varnish, sludge formation, and storage degradation—unlike ethanol blends that turn bad fast.

### 3. Maximum Uptime on the Water

#### Ideal for:

- Charter Fishing Fleets
- Valet, Slip & Garage Storage
- Single to Quad Outboards & All Gasoline Inboards
- Injectors and pumps
- Generators
- Jet Skis
- Pressure washers
- Any small engine exposed to humidity or long storage

**Less downtime = more productivity for our Charter Captains.**

### 4. Cleaner Combustion, Cleaner Water, CERTIFIED

- Advanced detergents keep valves, injectors, and carburetors clean
- Helps reduce emissions, over-fueling, and fuel waste
- Cleaner equipment around waterways supports the Clean Oceans Project mission.

# BetterFueling

Feature / Benefit	PurFuels 93 Clean Oceans Project	Gas Station Non-Ethanol	Regular Ethanol Fuel (E10/E15)
Octane Rating	93 Premium	89–90	87–91
Ethanol Content	0%	0%	10–15%
Engine Protection	Best – no moisture absorption, no phase separation	Good	Poor – corrosion & gumming
Storage Stability	Excellent	Moderate	Low – breaks down fast
Small Engine Compatibility	Ideal	Acceptable	High failure rate in carbureted engines
Environmental Benefit	Clean Oceans Project certified	None	None
Dealer Value	Premium recurring sales & loyalty	Commodity	Low value

## THE CLEAN OCEANS PROJECT MISSION

**PurFuels supports cleaner engines, reduced spills, lower emissions, and responsible fuel handling in agricultural and coastal regions. Dealers become ambassadors of a cleaner, more sustainable fuel option that protects both farmland and waterways.**

# MARINE

FUEL TREATMENT WITH SLIPSTREAM

Fuel 1 IGNITE + SlipStream Marine combines our patented injector-cleaning formula with the marine-grade anti-corrosion technology of SlipStream, delivering total protection for boats, PWCs, and all gasoline-powered marine engines.

### Key Benefits

- **Marine-Grade Carbon Removal** – Cleans injectors, valves, and combustion chambers to restore full RPMs and smoother throttle.
- **Salt-Air Corrosion Defense** – Forms a protective barrier inside the entire fuel system to combat humidity, salt, and ethanol water absorption.
- **Stabilizes E-Free & E10 Marine Fuels** – Keeps fuel fresh during long storage and reduces phase separation risk.
- **Improves Fuel Economy & Reliability** – Ensures consistent atomization and cleaner combustion for longer runs and less dock downtime.
- **Safe for All Outboard & Inboard Engines** – Mercury, Yamaha, Suzuki, Honda, and more.
- **Made in the USA** – Patented long neckottle, ensuring consistent purity and marine-grade reliability.
